## Foam Boards

Sign foam is a great alternative to wood / correx / abs for interior and exterior signage. In fact, many signs that appear to be carved are carved out of sign foam.

Sign foam is:

- \* Light weight
- \* Easy to fabricate
- \* Easy to paint
- \* Easy to glue

In addition, sign foam is rot, moisture, and insect resistant. Whether you are building an interior or exterior sign, foam board provides the sign designer and manufacturer much flexibility and durability.

Foam boards, 1mm thick or abs, 0.9mm thick **R 350.00** Per square metre

## ABS Boards

Similar to Perspex, but softer and considerably cheaper, ABS only comes in white. This product is lightweight, versatile and user friendly. ABS can be bent, heated and cut to shape.

It weathers well, is UV stable and can be printed and applied.

It's often used for safety signs and directional signs.

\* **Screen Printing Options are also available**
