Snap Frame Aluminum Light Up Displays

The Snap Frame Aluminum Light Up Display is our finest light box display, designed for wall, ceiling or freestanding applications where maximum durability is needed. This refined lightbox features hinged frames for front loading movie poster size graphics that makes updating your display a snap and is available in single or double-sided models. Let our premium snap-frame display add elegance to your next promotion. Available in single and double-sided models.

The brilliant Snap Frame Aluminum Light Up Display adds new dimension to your products, promotions and sales! No other sales tool can match the dynamic impact of a lighted sign display. An ideal solution for retail outlets, exhibitions and trade shows. Front loading graphics and a choice of elegant silver, black or white anodized aluminum frame make this a perfect solution for upscale movie poster sized signage and merchandising. Easy load graphic changes make this the premier solution for re-newable business signage.
